**Description**

It will be useful (as shown below) to be able to specify vlan range for multi-detect:

```
mappings:
- vlan:
  vlan-id: [67,1012,1111-1155]
  tenant-id: 1
```

**History**

**#1 - 01/01/2016 05:44 PM - Andreas Herz**
- Assignee set to OISF Dev
- Target version set to TBD

**#2 - 05/07/2019 06:43 PM - Victor Julien**
- Assignee changed from OISF Dev to Community Ticket
- Effort set to low
- Difficulty set to low

**#3 - 06/30/2019 06:46 PM - Shivani Bhardwaj**
If this is still relevant, may I take this up?
