Suricata - Feature #1767
Support DTLS protocol
04/25/2016 02:38 AM - Mats Klepsland

Status: New
Priority: Normal
Assignee: Community Ticket
Category: 
Target version: TBD
Effort: Protocol
Label: 

Description
Add support for DTLS (Datagram Transport Layer Security) protocol. It is based on TLS, so it should be possible to use the TLS decoder (with some modifications) to decode DTLS as well.

History
#1 - 04/25/2016 07:25 AM - Victor Julien
- Status changed from New to Assigned
- Target version set to TBD

#2 - 09/27/2019 01:18 PM - Victor Julien
Rust pretty please!

#3 - 01/14/2020 12:28 PM - Konstantin Klinger
Is there any current update on this ticket? Would be great to have support, should be working with an adaption of the TLS parser.

#4 - 01/27/2020 03:37 PM - Victor Julien
- Label Protocol added

#5 - 07/14/2020 01:34 PM - Victor Julien
- Status changed from Assigned to New
- Assignee changed from Mats Klepsland to Community Ticket
