Suricata - Feature #1789
hyperscan mpm: enable by default
05/20/2016 12:18 PM - Victor Julien

Description
Hyperscan seems very stable, so I think it's time to enable it by default.

I'm suggesting to use the same logic as with spm-algo, simply have an 'mpm-algo: auto' that default to hs if hyperscan is compiled in and uses "ac" otherwise.

Justin are you up for this one?

#2 - 05/22/2016 06:03 PM - Justin Viiret
Sure -- I'll have a PR ready to go today.

#3 - 05/24/2016 05:20 AM - O P
Tested on FreeBSD 10.2 for a while and did not notice anything unusual.

#4 - 05/28/2016 05:35 AM - Victor Julien
- Status changed from Assigned to Closed
- Target version changed from Soon to 3.1rc1
