Description
Similar to https://redmine.openinfosecfoundation.org/issues/1661 but for workers runmode

History

#1 - 04/13/2017 02:16 AM - Victor Julien
Can you be more specific about what this ticket is about? #1661 has a solution that doesn't apply to workers.

#2 - 04/13/2017 03:33 AM - Peter Manev
Following #1661 -
"...The problem is that when using autofp or workers mode there's no guarantee the relevant traffic will all be in the same thread and hence match the xbits..."

So #1661 has an autofp patch but the issue is still valid for workers mode/xbits/ip_pair combination.
From previous discussions it seems a possible fix for workers is not trivial - so starting a new tracker for it here.

#3 - 05/03/2017 04:15 PM - Andreas Herz
- Assignee set to OISF Dev
- Target version set to TBD

#4 - 03/06/2021 08:07 AM - Victor Julien
- Parent task set to #4380
