Suricata - Feature #2262

Unix Socket Output Configurable Retries and Blocking

11/06/2017 04:18 PM - Danny Browning

Status: Assigned
Priority: Normal
Assignee: Danny Browning
Category:
Target version: TBD
Effort:
Difficulty:

Description
Related to https://redmine.openinfosecfoundation.org/issues/2215 which was found to be a bug.

Expose configuration settings for retries on socket writes/connections, and expose configuration to use blocking or non blocking socket in offline mode.
