Suricata - Feature #2674
Split out NFS parser to be reusable
11/12/2018 08:01 PM - Ed Page

Status: New
Priority: Normal
Assignee: Community Ticket
Category: 
Target version: TBD
Effort: 
Difficulty: 
Label: 

Description
Suricata has a built-in NFS parser written in Rust, [https://github.com/OISF/suricata/tree/master/rust/src/nfs](https://github.com/OISF/suricata/tree/master/rust/src/nfs)

Splitting this out into a dedicated crate can allow leverage/collaboration between Suricata and other projects.
