**Suricata-Update - Optimization #2878**

**Catch control-c (KeyboardInterrupt) and exit cleanly.**

03/12/2019 03:37 PM - Jason Ish

**Description**

Right now if you hit control-c, suricata-update will exit (as expected) but display a traceback of what was currently being executed. This could be made more friendly by catching the "KeyboardInterrupt" and simply displaying a message like:

Program interrupted by keyboard, aborting.

But still exit with an error code 1.

**History**

**#1 - 03/13/2019 06:18 PM - Shivani Bhardwaj**
- Status changed from New to Feedback
- Assignee deleted (Shivani Bhardwaj)
