Description

The make procedure does not end, it looks infinitely blocked at 75/89.

Running Armbian buster with Linux 5.4.6-sunxi on Orange Pi R1.

```
pi@orangepi:~/suricata-5.0.1$ sudo make
make  all-recursive
make
1
: Entering directory '/home/pi/suricata-5.0.1'
Making all in libhtp

Did you try that again with most recent suricata and a newer raspian version? I guess that's something specific to rust on that arch.
