**Description**

The `byte_extract` documentation is missing some optional args such as little, big, multiplier, etc.

This is on the master branch, but technically impacts all versions that support these optional args. These args have existed for many years already. git blame shows the changes as 6+ years old.

Current doc mentions:

`byte_extract` implements some optional args:

Should be able to copy the doc together from `byte_jump` fairly trivially, see

I can provide a PR once I get around to it.

**History**

#### #1 - 05/26/2020 07:36 PM - Victor Julien

- Status changed from In Review to Assigned

@Jeff Lucovsky you've been doing some work in this area. Pinging you to make sure we're not duplicating efforts.

#### #2 - 05/26/2020 08:04 PM - Roland Fischer

No worries. Have not done anything yet. ;) We'll wait what Jeff is coming back with.

#### #3 - 07/27/2020 07:56 PM - Roland Fischer

- Status changed from Assigned to Closed

That was fixed in [https://github.com/OISF/suricata/pull/5080](https://github.com/OISF/suricata/pull/5080) and merged with [https://github.com/OISF/suricata/pull/5115](https://github.com/OISF/suricata/pull/5115)

Closing this task.
