Description
Current createst script generates only the filter blocks as per eve.json, extend its functionality to add a global Suricata version as mentioned on command line.

Expectation
createst.py mytest mypcap --add-version 6.0.0

The final generated test.yaml should have a suricata version defined globally.

```
requires:
  features:
    - HAVE_LIBJANSSON
      version: 6.0.0

checks:
  - filter:
      count: 1
```
