Suricata - Bug #4211
Not all manpages are built by docs Makefile
12/09/2020 10:11 PM - Sascha Steinbiss

Status: Closed
Priority: Normal
Assignee: Sascha Steinbiss
Category:
Target version: 7.0rc1
Affected Versions: 6.0.1
Effort:

Description
While https://github.com/OISF/suricata/pull/3812 (for #884) adds the Sphinx side, the man target in the Makefile in the docs/userguide directory does not seem to build all man pages. The ones for suricatasc, suricatactl and suricatactl-filestore are missing, only `suricata.1` is created.

I think this can be closed now, the associated PR is merged.

#5 - 01/07/2021 05:29 PM - Jason Ish
- Status changed from In Progress to In Review

I'll take care of it when merged into our new 6.0.x branch as well. Thanks for the update.
